

Friday

- 08:30 - 09:30** Biomedical applications of carbon nanomaterials
Tutorial: Silvia Giordani -
- 09:30 - 10:00** Cyanobacteria–Nanoparticle Biohybrid Systems: Toward Enhanced Energy Production and Agricultural Applications
Invited: Yolanda Angulo -
- 10:00 - 10:20** Mechanical Properties of Fuctionalized Chitosan Biofilms
Oral Contribution: Julio C. Chacón-Torres -
- 10:20 - 10:35** Physicochemical Stability and Preliminary Biocompatibility of Geraniol-Loaded SNEDDS Nanoemulsions
Young Research: Laura Raquel Ochoa-Rodríguez -
- 11:00 - 11:30** 2D Materials: Challenges and Opportunities in a Quantum World
Invited: Humberto Terrones -
- 11:30 - 12:00** Going beyond the classical view of cat-ions
Invited: Thibault Terencio -
- 12:00 - 13:00** Closing Remarks
